Quick Chill and refrigerated storage in one cabinet

A new concept from Gram, the universal "Quick-Chill/Refrigerated Storage" combi-cabinet

One single cabinet to fulfill all your quick chilling, freezing, and refrigerated storage needs. This versatile cabinet minimises the demand for space and offers you maximum flexibility.

GRAM TWIN U/KP 660

PRODUCT News!

The safe temperature control of foodstuffs is a critical task for all kitchens ranging from the smallest foodstuffs to the largest production kitchen. Many foodstuffs demand a gentle chilling process helping both to preserve food quality and nutritional value.

GRAM TWIN U/KP 660 combines quick chilling/freezing with refrigerated storage and offers a space saving "all-in-one" solution. The cabinet is the ideal choice for small kitchens where space is at a premium. The quick chill programme also includes a function that protects against surface freezing.

This ground breaking cabinet is available with the same environmentally friendly technology as Gram energy efficient cabinets. This means that it is completely free from HFC and only uses natural refrigerants. Cyclopentane, an environmentally friendly gas used as the foam propellant.

2/1 GN

2 controllers

– for separate control of the two unique systems.

Removable door gaskets

– hygienic and easy to clean.

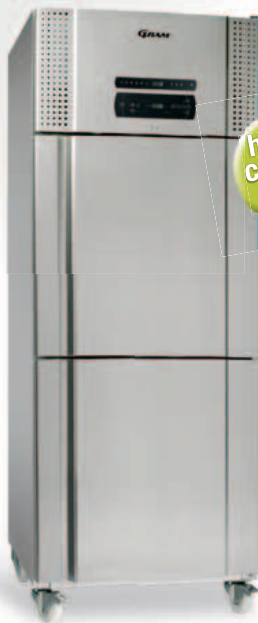

GRAM TWIN U/KP 660

Integrated handle

Each door has a full-height integrated handle.

Sturdy wire shelves

– with tilt prevention. U-rail supports prevent the shelves from tilting when pulled out.

hydro carbon options available

Universal “Quick-Chill/Refrigerated Storage” U/KP combi-cabinet with 6 different functions

With the U/KP cabinet your kitchen has a “multifunctional” cabinet with 6 functions: **Refrigeration, freezing, quick chill, quick freeze, controlled rapid thawing and dry cooling.** The cabinets are constructed of food safe stainless steel both inside and out. Four stainless wire shelves are included as standard. The dimensions are the same as a GRAM TWIN 660 cabinet accepting the 2/1 wide GN system. This means that two 1/1 GN pans can be placed next to each other on the stainless wire shelves. Providing both excellent visibility and easy access to your stored items.

Multifunctional:

- 6 functions in one cabinets minimises space requirements
- combines refrigeration/freezing with quick chilling/freezing
- quick chill function with hard chill and soft chill
- dry cooling function - reduces condensation on the surface of food items
- controlled rapid thawing - ensures a HACCP safe thawing process
- environmentally friendly technology, completely free from HFC
- stainless inside and out
- takes the 2/1 wide GN system
- includes 2 x 2 stainless wire shelves
